COMMENCEMENT WEEK AT STATE AGRICULTURAL H. S.

The week of April 21 was commencement week at the State Agricultural High School at Lincoln. The graduating class numbered fifty. Of these, nineteen were young women and thirty-one were young men. About half the girls expect to teach in rural schools this next year. A few of the boys will continue their education in the College of Agriculture, but the majority of the class are leaving school work for the farm. Nearly all of those who are planning to continue school work will return to the farm within a few years.

The majority of the graduates of our Engineering College, and to a lesser extent, of the other Colleges leave Nebraska to take up work in other states. Not so with the graduates of the Agricultural High school. They are on the job in their home state, increasing production and conserving Nebraska resources.

BISHOP BEECHER TO MOVE TO HASTINGS

Bishop Beecher of Kearney expects to move his headquarters from that town to Hastings, according to information that has reached his friends in Omaha.

He has been active at the Kearney Military Academy and has also founded a hospital there, but it is thought that he is projecting a little further north and west.

In changing his residence an Episcopal bishop is at liberty to move wherever he chooses within his diocese without consulting anyone. Bishop Beecher is making the present move simply as a matter of convenience to his activities.—Omaha Bee.

NEBR. PEOPLE WILL COME TO OMAHA

Omaha, Nebr., Apr. 23. Five hundred United Spanish War Veterans will meet in Omaha the latter part of the week to participate in their Annual Reunion. Following this, the Nebraska Medical Association, the Mississippi Valley Historical Association, and the Nebraska Dental Association will hold their meetings here.

Something more than a tornado is required to stop Omaha people from entertaining the people of Nebraska. If there is anything that Omahans like more than a convention of Nebraskans, it is more conventions. Omaha and Nebraska are so inseparable that one can hardly get along without the other. Here's to the big hearted Nebraskans, who will never be forgotten by Omaha's citizens.

U. S. CIVIL SERVICE COMMISSION

Washington, D. C., April 9, 1913. Secretary, Board of Civil Service Examiners, Alliance, Nebr.

Sir: The Commission desires to invite your attention to the railway mail clerk examination which is scheduled to be held in your city on May 3, 1913. Owing to the large number of applications which are being received, it is found that the maximum accommodations at each place will very likely be required. The receipt of this office show maximum accommodations at your office for 50 applicants.

If it is impossible to take care of the number given above in one day, or if a larger number can be accommodated, please advise the Commission immediately of the number that can be accommodated.

You will in due time be advised of the number of applicants that may be expected.

By direction of the Commission: Very respectfully, John C. Black, Pres.

LEGAL NOTICE

NOTICE OF PROBATE OF WILL

IN THE COUNTY COURT OF BOX BUTTE COUNTY, NEBRASKA.
The State of Nebraska, to all persons interested in the estate of George D. Gaddis, deceased.

YOU ARE HEREBY NOTIFIED that an instrument purporting to be the Last Will and Testament of George D. Gaddis, deceased, is on file in said Court, and also a petition praying for the Probate of said instrument, and for the appointment of Belle Cladene Gaddis as Executrix. That on the 17th day of May, 1913, at 10 o'clock A. M., said petition and the proof of the execution of said instrument will be heard, and that if you do not then appear and contest, said Court may Probate and record the same, and grant administration of the estate to Belle Cladene Gaddis.

This notice shall be published three weeks successively in The Alliance Herald prior to said hearing. Witness my hand and official seal this 30th day of April, 1913.

L. A. BERRY, County Judge. (Seal) 233-21-31

SIGHED FROM SIDE TO SIDE

The World-Herald of last Thursday gave an account of the Omaha Club's annual spring dinner dance. The weather being warm and the windows open, the strains of music, which were very raggy, floated out upon the night air and attracted a crowd in the street below. Some of the street crowd attempted to duplicate on the sidewalk the new steps that were being tripped in the ball room by the elite of Omaha society, but a cop interfered and put a stop to it. Inside there were no police to interfere. "The music kept up," says the Omaha paper, "and outside the crowd sighed and sighed and swayed from side to side."

THERMOPOLIS LINE OPEN

Other News Concerning Railway Affairs, by The Herald's Special Correspondent

THANKS COMMERCIAL CLUB

On Monday the first train was run over the new line of the Burlington which runs from Laurel, Montana, to Powder River, Wyoming, where it connects with the Northwestern. The Burlington officials, who passed thru Alliance Thursday evening of last week on the special train, were also on this train. It was hauled by Engine No. 800, Goodwin engineer, and Bert Stever conductor.

The train was composed of business cars No. 37, 93, 74, 92 and 99. On board were President Miller, Mr. Harris, president of the board of directors, vice president Byram, general superintendent E. E. Young, of Alliance, and other officials.

The train was run onto the Northwestern line at Powder River, and over that line to Casper, where a stop was made to inspect the seventy-two acres of ground purchased there by the Burlington for a terminal. This land lies in a good location, back of the court house. The train then proceeded to Orin Junction where it crossed over to the line of the Colorado & Southern, going south. Supt. Young left the train at Hartville Junction, returning over the Guernsey line to Alliance. The party was met at Hartville Junction by vice president Parker of the C. & S., and proceeded on to Denver, via Cheyenne.

The Burlington is building east with a big force and will go as far as Casper, from which point the Northwestern line will be used as far as Orin Junction for some time.

Thank Commercial Club

The Officers with the President's Special, which passed thru Alliance Thursday on an inspection trip of the Lines West, desire to thank the Members of the Commercial Club for their kind invitation to stop here and be the guests of the Club at a banquet, but on account of arrangements being made in advance to be at certain points, they could not do this and carry out their original plans. They, however, want to express their appreciation of the efforts of Mayor-elect Rodgers and the Club in very cordial terms, and regretted very much their inability to avail themselves of this opportunity to meet the business men of Alliance and partake of their hospitality, but should an opportunity present itself in the future, when they can do so, they will only be too glad to stop at Alliance and get acquainted.

Railway Business for February

Railway business in the United States for February was slightly greater than for the corresponding month of 1912. This is indicated in statistics compiled by the Bureau of Railway Economics from the reports of steam railways, operating over ninety per cent of the mileage of the country, to the Interstate Commerce Commission.

The returns for February average as follows per mile of line: Total operating revenues per mile amounted to \$1,015, which is 5.3 per cent greater than in February 1912; operating expenses per mile amounted to \$756, or 6.4 per cent greater than in 1912; net operating revenue per mile amounted to \$259, or 2.4 per cent greater than in 1912. Taxes amounted to \$46 per mile, an increase of 5.7 per cent. Operating income, which is what is available for rentals, interest on bonds, appropriations for betterments, improvements, and new construction, and for dividends, after the payment of operating expenses and taxes, amounted in February to \$212 per mile. This represents an increase over February 1912 of less than four dollars a mile, or 1.8 per cent.

As February contained twenty-nine days in 1912 and but twenty-eight in 1913, the returns for this month of the current year, other things equal, would be somewhat less than for February 1912. A comparison of operating income on the basis of income per mile per day eliminates the effect of the extra day in 1912. On this basis operating income per mile per day averaged \$7.58 in February 1913, \$7.19 in 1912, and \$6.49 in 1911.

The railway returns here presented are for the month ending February 28, and do not reflect the recent impairment of railway operating conditions on account of floods in the middle West and the South. It will not be possible to trace the effect of these impaired conditions in the railway record until the returns for March, April and later months are available.

Jack Lloyd of Ellsworth was in Alliance on business the first of the week. While here he sold two lots which he owned in the north part of the city near the High school building.

C. A. Sprague has returned to service in the telegraph office after doing relief work at the Sterling, Broken Bow and Edgemont offices.

Brakeman Fred Vaughan on W. V. Johnson's car was called to Denver Monday night on account of sickness of a relative.

Dispatcher Archie Gregory laid off Monday on account of sickness Ralph Cox working the trick.

J. T. Peckenpaugh, who for the past year has been night chief dispatcher, left Tuesday for Sterling, Colo., where he has been appointed chief train dispatcher filling the vacancy caused by the failure in health of J. C. Coughlan, appointment to take effect May 1st. The promotion comes to Mr. Peckenpaugh after several years service as telegraph operator, train dispatcher and night chief and his Alliance friends while sorry to lose him wish him success in his new position. Third trick dispatcher M. E. Coleman will be pro-

moted to succeed Mr. Peckenpaugh and Ralph Cox, who has been relief dispatcher, will take Coleman's place on third trick.

Andy Brice of the telegraph office force moved his family to his claim north of Reno after a five months' leave of absence.

The Burlington joined forces in the fight against the small pox epidemic Tuesday night. All offices in the depot with the exception of the telegraph and dispatcher's offices were fumigated. This will be kept up every day or two thru the shops and offices until the disease has been stamped out in Alliance.

Conductor E. J. Beard has charge of the work train at Whitman, assisting in lengthening the passing siding at that point.

Sloyd's Column

There are four factors, according to Newspaperdom, that combine to make an advertisement a success.

First—The goods. There must be something to sell—that is, something of real value, or no demand can be created by the best of ads in the best of newspapers.

Second—The ad itself—its appearance, the manner in which it attracts attention, creates confidence and induces belief.

Third—The medium. The vehicle that must carry the advertisement to a sufficient number of possible buyers.

Fourth—The combination of all these factors and a complete and intelligent co-operation between the advertiser and the selling forces.—Omaha Trade Exhibit.

In the general hurry and rush of getting out a month's edition of sixteen pages, as last week, Sloyd's column and the T. P. A. department got into a tangle, the result being that the news written for the T. P. A. department came out in Sloyd's column. Sloyd's column was then used as "filler" in a dozen different places. But as long as it "got there" we are satisfied.

I stated in an article last week that a Ford touring car, driven by W. R. Drake of Alliance, climbed the famous yard hill twenty-five miles south of Alliance, known as Peterson's Hill. I also stated that the car climbed the south side, known as the "breakneck" side of the hill. I did not state, however, that the car climbed the steep part of the south side of the hill. That would be well nigh impossible for a man or horse to do at once a car. But the Ford went up the south side as stated. It of course took some maneuvering around to make it. I was not in the car, but I was not so very far away watching, and expecting the doughy little Ford to give up the strenuous climb. With me were Sheriff Cal Cox and Lincoln Lewry. We were in a Buick car, returning from the Hubbell ranch with the curiously remains of George Gaddis. We did not attempt to climb the hill, considering that an impossibility, but were going around through the cut near the Peterson buildings. The fifty dollars offered for a car to climb the hill at its worst point is perfectly safe but I will venture to guess that an offer of fifty dollars for the car to climb the south side and go over the hill again, as was done on Wednesday last week, would be quickly taken up and undoubtedly won. The little Ford was able at times to "walk" around our Buick, especially when it came to heavy sand, although I have no complaint to make of the Buick, which is a sturdy, reliable car.

For the Weak and Nervous
Tired-out, weak, nervous men and women would feel ambitious, energetic, full of life and always have a good appetite, if they would do the sensible thing for health—take Electric Bitters. Nothing better for the stomach, liver or kidneys. Thousands say they owe their lives to this wonderful home remedy. Mrs. O. Rhinevault, of Vestal Center, N.Y., says: "I regard Electric Bitters as one of the greatest of gifts. I can never forget what it has done for me." Get a bottle yourself and see what a difference it will make in your health. Only 50c and \$1.00. Recommended by Fred E. Holsten. Advertisement 21-5-2015
